

HOLIDAY GIFT IDEAS

Picture-Perfect Presents

(NAPSA)—Picture this: Holiday gift shopping that's more of a snap, thanks to cameras and photo accessories great for just about anyone on your shopping list:

- A picture-perfect match for people who love taking pictures may be one of Fujifilm's new 35mm and 24mm Advanced Photo System (APS) cameras. Ideal for those in search of a point-and-shoot camera with more advanced features: the Fujifilm Zoom Date 125 SR, a stylish compact camera with an easy-to-use date/time stamp for organizing snapshots. Other features: a Sure Loading system to ensure film is always loaded correctly; remote control and sequential self-timer so everyone can join in the picture.

- For the stylish teen in your family, the Q1 camera is unique with its round shape and small size that can easily fit in the palm of your hand, be slipped into a jacket pocket, or worn around the neck as the perfect accessory. Automatic features make it ideal for capturing the action at those cool holiday parties.

- Don't forget to include film with the new camera you give this holiday season. For 24mm Advanced Photo System picture-takers, Fujifilm offers the Nexia 400 3-pack. If you need 35mm film, try the four-pack of Fujicolor Superia X-TRA 400. You'll be better able to capture sharp images in low-light conditions, such as festive outdoor lights on winter nights.

- A great gift for gadget buffs,

Point-and-shoot holiday fun: new cameras with fabulous features.

the new FinePix A303 is among the slimmest and lightest digital cameras in its class. It sports a 3x optical zoom, movie recording, and PC-cam capabilities so you can stay in touch with friends and family long distance. Easy-to-install FinePix-Viewer software makes viewing and e-mailing pictures a snap; or drop off the removable storage media card at a Digital Camera Developing retailer for traditional prints.

- Some great stocking stuffers—one-time-use cameras for the person on the go, such as the Fujicolor QuickSnap Flash with its real camera look and large viewfinder for easy focusing, pre-loaded with 27 exposures. For the tech-savvy person on your list, Fujifilm's Universal Serial Bus (USB) Drive offers powerful and convenient removable storage that is small enough to fit in a pocket or carry on a key chain to show off your photos on any computer.
