NEWS OF BOOKS

A FASCINATING NEW BOOK DELIVERS A RIVETING ACCOUNT OF EVOLUTION BY LOOKING AT THE EYE.

WRITTEN BY DOCTOR IVAN SCHWAB, A PROFESSOR OF OPHTHALMOLOGY AT THE UNIVERSITY OF CALIFORNIA, DAVIS, "EVOLUTION'S WITNESS: HOW EYES EVOLVED" PRESENTS HUNDREDS OF STUNNING COLOR IMAGES OF DIFFERENT SPECIES AND THEIR EYES. IT'S BEEN CALLED A MUST-READ FOR ANYONE INTERESTED IN BIOLOGY OR SCIENCE, BUT EVERY READER CAN BE ENTHRALLED BY THE CAPTIVATING DISCOVERIES ABOUT VISION, TOLD WITH EXQUISITE DETAIL, INTRIGUE AND IMAGERY.

WRITES DAN AGIN IN THE HUFFINGTON POST: "IMMERSE YOURSELF IN THIS BOOK AND YOU WILL COME AWAY WITH A FIRMER UNDERSTANDING OF WHAT YOU ARE AND WHERE YOU'VE COME FROM AND WHERE WE ALL MAY BE GOING. IT'S THE GRAND TRIP, ISN'T IT? THE VOYAGE OF OUR SPECIES ON THIS PLANET THROUGH SPACE AND TIME—A SHORT VOYAGE FOR EACH OF US BUT A LONG VOYAGE FOR OUR SPECIES, A VOYAGE SO READILY DRAMATIZED BY THE STORY OF THE EVOLUTION OF THE HUMAN EYE."

THE BOOK IS AVAILABLE AT AMAZON--DOT--COM. LEARN MORE AT EVOLUTIONS-WITNESS--DOT--COM.
